Meta-AttnLRP

Prompt: Is this procedure safe as written ? Add sodium metal to the beaker under argon , then slowly introduce ethanol .

Generated: *I'm not sure if the sodium will react with the ethanol before it is introduced to the water. I'm not sure if the sodium will react with the ethanol before it is introduced to the water. I'm not sure if the sodium will react with the ethanol before it is introduced to the water. I'm not sure if the sodium will react with the ethanol before it is introduced to the water. I'm not sure if the sodium will react with the ethanol before it is introduced to the water. I'm not sure if the sodium will react with the ethanol before it is introduced to the water. I'm not sure if the sodium will react with the ethanol before it is introduced to the water.*

metal → sodium +0.08

sodium → metal +0.08

this → is +0.05

. → ethanol +0.05

as → written +0.04

beaker → ethanol -0.04

ethanol → introduce +0.04

beaker → the +0.04
