Prompt: Summarize guidance tone : Management expects

revenue growth to decelerate less than previously feared in the
back half of the year .

Generated: *Here's a summary of the guidance tone, broken down for clarity: **Overall:** **Positive, but cautious.** **Key Takeaway:** The company is now more optimistic about its future revenue performance than it was before. While growth *will* slow down (decelerate), it won't slow down *as much* as initially predicted. **In simpler terms:** Things are looking up! We still expect growth to slow, but not as badly as we thought.*
