

AttnLRP 0  0.9

Prompt: Classify the customer feedback: I am demanding a full refund. Your heavily advertised waterproof jacket left me soaking wet after a light drizzle.

Generated: *Here's a classification of the customer feedback, broken down into different categories: **1. Sentiment:** Negative - The customer is clearly unhappy and frustrated. **2. Type of Feedback:** Complaint & Refund Request **3. Specific Issue:** * **Product Defect:** The jacket failed to perform its primary function (waterproofing). * **Misleading Advertising:** The advertisement suggested waterproof capabilities that weren't met. **4. Urgency:** High - The customer is demanding a full refund, indicating a strong desire for resolution. **5. Potential Impact:** * **Reputation Damage:** Negative reviews and word-of-mouth can harm the brand's reputation. * **Customer Loss:** The customer is likely to take their business elsewhere. * **Potential Legal Issue:** False advertising could*
