Prompt: Diagnose the vehicle condition : While the engine block looked pristine , the heavily corroded spark plugs were a dead giveaway of poor maintenance .

spark → plugs	+0.25
engine → block	+0.23
vehicle → condition	+0.21
plugs → spark	+0.20
ose → diagn	+0.16
diagn → ose	+0.12
looked → pristine	+0.11
the → vehicle	+0.11

Generated: Okay, here's a diagnosis based on the provided information:
Overall Condition: Poor - Significant Neglect ***Key Issue:** Severe corrosion on the spark plugs.* ***Detailed Breakdown:*** * ***Engine Block (Positive):*** The fact that the engine block itself looks pristine suggests that the core engine components are generally in good condition. This is a good starting point. * ***Spark Plugs (Negative - Major Concern):*** The heavy corrosion on the spark plugs is a *major* red flag. This indicates: * ***Old Spark Plugs:*** They've likely been in use for a very long time. * ***Poor Fuel Quality:*** Corrosive spark plugs often point to inconsistent or low-quality fuel being used. * ***Lack of Maintenance:*** Regular spark plug replacement is a crucial part of engine maintenance
