Prompt: Is this recipe suitable for a **vegan** guest ? Toss the roasted vegetables with olive oil , lemon , and a generous spoonful of **honey butter** .

Generated: *No, this recipe is ****not**** suitable for a vegan guest. The key ingredient, "honey butter," is made with honey, which is an animal product. Here's how you could easily adapt it for a vegan guest: * ****Replace the honey butter:**** Use a vegan butter alternative (many good brands are available now!) and add a touch of maple syrup or agave nectar for sweetness. You could also make a simple herb butter with vegan butter, garlic, and herbs. Would you like me to suggest a vegan alternative for the honey butter or perhaps a simple recipe for a vegan roasted vegetable dish?*
