Prompt: Diagn ose the vehicle condition : While the engine block
looked pristine , the heavily corro ded spark plugs were a dead
giveaway of poor maintenance .

Generated: *Clean the engine block: The engine block was cleaned with a wire brush and degreaser to remove the corrosion. Replace the spark plugs: The spark plugs were replaced with new ones to ensure proper ignition. Install the new spark plugs: The new spark plugs were installed in the engine block. Test the engine: The engine was started and ran smoothly, indicating that the problem was resolved. The engine block was cleaned and the spark plugs were replaced, which resolved the issue of the engine not starting.<eos>*
